Typeface design kit

Documents Interface Data Social

TYPE AS PLACE

The system behaves like Berlin itself

Institutional precision meets the pressure of the street.
Weight creates presence. Alignment creates authority.
Silence creates room for other people to enter.

CORE PRINCIPLE

**The crossing is a relationship,
not a decorative symbol.**

One system. Three voices.

TEXT REGULAR

Berlin is not a backdrop.

It is an active participant in every image,
caption, encounter and contribution.

Master lockup

Lowercase words, one shared typographic band, one true multiplication sign.

TOP ALIGNMENT

berlin x kawe

BASE ALIGNMENT

- 01 Keep the full lockup on one line.
- 02 Scale x optically, not mathematically.
- 03 Never replace x with x.

Alignment and frame

The frame is an active edge. Cropping is allowed only when recognition survives.

QUIET

FRAME

PRESSURE

Margin rule

Quiet layouts use 8% of the canvas. Pressure layouts may touch two edges, never all four.

Charts and diagrams

Typography carries the structure. Graphic marks stay quiet.

CONTRIBUTIONS BY DISTRICT

OBSERVATION DENSITY

Rule Labels use Mono. Titles use Text Bold.
Numbers never compete with the data.

Social square systems

Four repeatable compositions for text-only posts.

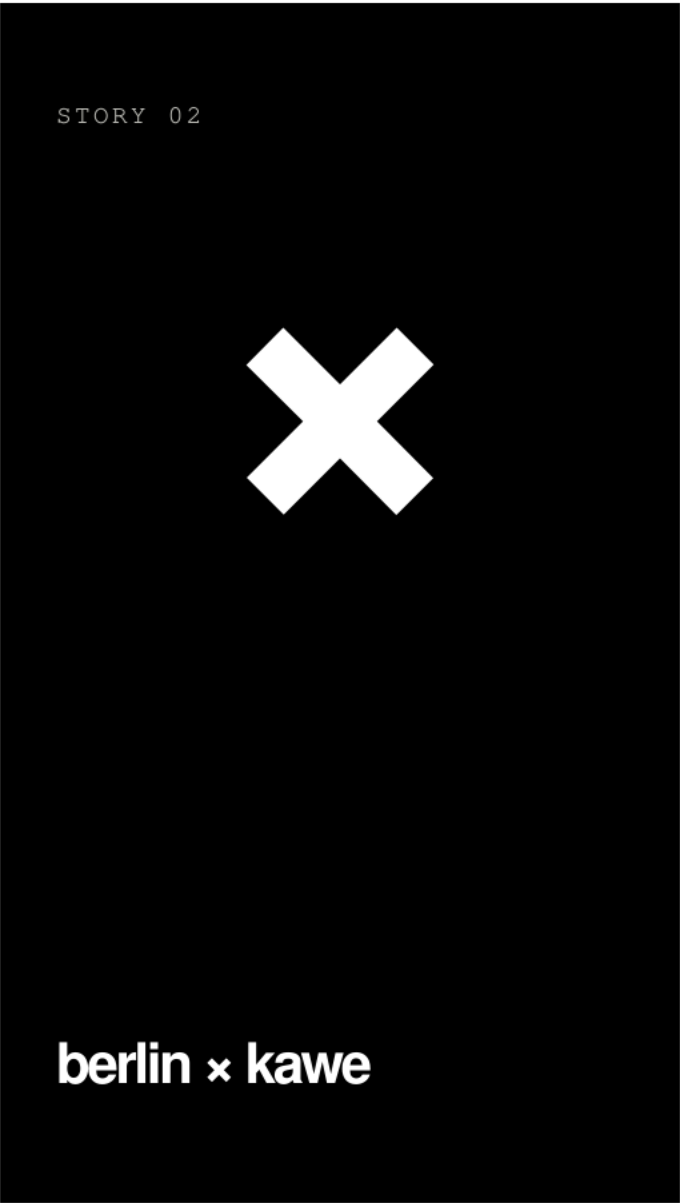

Feed rhythm

Alternate dense and quiet posts. Never publish two edge-pressure layouts consecutively.

Portrait and story

Vertical formats use height as pacing, not as empty decoration.

RULES

- Keep Persian and Latin on separate baselines when possible.
- Match visual weight, not nominal point size.
- Use × unchanged between the two scripts.
- Do not compress Persian tracking artificially.

Do and do not

DO

berlin × kawe

Use lowercase for the master name.

Use the true multiplication sign.

Let one alignment decision lead the composition.

Crop only when recognition remains complete.

DO NOT

BERLIN × KAWE

Do not add outlines, shadows or gradients.

Do not center every composition.

Do not combine more than three weights.

Do not use × as a decorative pattern.

Minimum contrast 4.5:1 for body text / 3:1 for large display text
